## ACCESSING EBSCOHOST TEMPORARY WORKAROUND

**Step 1:** In your preferred browser (Chrome works best, but Safari, Firefox, or Edge should work too), type ezproxy.nvit.ca in the navigation bar.

**Step 2:** You should see a screen like the one shown below. Enter your NVIT user credentials to proceed.

S ezproxy.nvit.ca/login	× +
$\leftrightarrow$ $\rightarrow$ C (i) Not secure	ezproxy.nvit.ca/login
👖 Apps  🧟 AskAway Login 🛛 🕹	🖌 Campfire Log In 🕜 Colleague 🕸 Dark Sun 5e 🎆 Dewey to LoC 🔇 Illume 🔇 Library Shipping Toc
This is login.htm from the docs www.oclc.org/us/en/support/doc	subdirectory. Review http://www.oclc.org/us/en/support/documentation/ezproxy/url/admin/ for in umentation/ezproxy/usr/ for information on user authentication options.

**Step 3:** The next screen should look like the one below. Click on EBSCOhost from the menu (it should be the first link).

**Step 3.5:** You will probably get an error screen after clicking the "EBSCOhost" link. In the address bar, you should now have a web address that says "search.ebscohost.com.exproxy.nvit.ca/login.aspx". Simply delete everything after "search.ebscohost.com" and hit enter; this should take you to step 4.

**Step 4:** Choose "Search for journal/magazine articles" from the list of resources. You can also just click the EBSCOhost icon.

**Step 5:** Click "Select/Deselect all" or select the specific database you want to search, then click Continue.

**Step 5.5:** If you are specifically wanting to search our eBook collection, select only the databases "eBook Collection (EBSCOhost)" and "eBook Academic Collection (EBSCOhost)".

**Step 6:** You should now be in the normal EBSCOhost interface. If you have any problems, contact the library staff at (250)-378-3302, <u>rcavaliere@nvit.bc.ca</u> or <u>dleggett@nvit.bc.ca</u> to troubleshoot!
