

Medical Laboratory Careers at Interior Health

Interior Health Authority is looking for **Medical Laboratory Assistants!**

We have multiple laboratory locations hiring now across our stunning region in B.C. From state-of-the-art highly specialized tertiary sites, large regional level labs to community hospitals and health centres in rural settings; we can work with you to find your dream position.

What is a Medical Laboratory Assistant?

Medical Lab Assistants perform a variety of pre-analytical duties at hospitals and health care facilities including:

- Interacting with patients and healthcare providers
- Collecting blood (phlebotomy) and other specimens
- Preparing, distributing and processing routine tests
- Using computers and other lab equipment
- Data entry, clerical duties and ECG testing

How to Qualify:

Your pathway to becoming a qualified Med Lab Assistant is just steps away! Interior Health is affiliated with TRU's online MLA certificate program. This nationally accredited program offers:

- Continuous open enrolment
- Flexible online learning at your own pace
- Hands-on experience & skill development
- Clinical practicum at Interior Health
- Excellent employability prospects
